---

I think we could do that.

**Subject:** August 11, 2015 Proposal

Genevieve,

We are currently putting together our response to the August 11, 2015 EPA Proposal for the Title V Permit. In regards to the Feedstream Analysis Plan and our discussions in February, I think we were in conceptual agreement, but I don't believe we completely finalized the changes that will be made and the actual wording. To make sure there is no confusion and Veolia can assure that no appeal is necessary, we would like to get a written copy of the FAP modifications that will appear in the Title V Permit. Do you think it would be good for you, David Ogulie, David Klarich, Christie Narez, and me to have a conference call this week to discuss the FAP? I will call you later today to discuss this further.
